

# New 42E Series for Spot and Wholehouse Ventilation Control

## 42E01 Series - Electronic Fan/Light Time Switch *Dual Switch Control*

Dual switch control for independently turning “on” and “off” a light circuit or turning on a preset fan delay time for removing excess moisture from a bathroom preventing mold and bacteria growth. Package includes both white and ivory overlays.

*Used in:* Residential and Commercial Bathrooms

## 42E02 Series - Electronic Fan/Light Time Switch *Single Switch Control*

Single switch control for turning “on” fan and light circuits simultaneously and turning light manually “off” allowing fan to remain on for a preset delay time. This feature prevents the fan from being manually shut “off” before removing excess moisture from a bathroom preventing mold and bacteria growth. Package includes both white and ivory overlays. *Used in:* Residential and Commercial Bathrooms

*Switch Plate Sold Separately*

## 42E20 Series - Electronic Wall Box Time Switch *Single Switch Control*

Single circuit push button switch for tuning on a device such as an attic fan for heat removal and moisture protection for a preset time duration. Package includes both white and ivory overlays.

*Used in:* Wholehouse Exhaust Fans

Industry Recognized Wall Box Timers Already available from **MARKTIME**

## 42 Series - Commercial Grade Fan/Light Time Switch

Commercial grade toggle switch for simultaneously turning a light and fan, and when switch is toggled in the down position, light turns off and the fan remains on for a predetermined delay time up to 60 minutes. Unit available in either white or ivory.

*Used in:* Commercial Bathrooms and Institutional Facilities

## 93 Series - Wall Box Time Switch

Interchangeable with standard toggle switches to turn circuits either “on” or “off” at the end of a pre-set time period. Time ranges from 15 minutes to 12 hours. Package includes both white and ivory knobs and decorator dials. *Used in:* Wholehouse Exhaust Fans
